EDUCATION

V.R.S & Y.R.N College, Chirala   **2022**

Bachelor of Arts

B.S & V.K.R.M Jr College, Chirala   **2018**

Intermediate (C.E.C)

OWN PROJECTS

Until now, I have built two websites and one webpage from scratch using HTML, CSS, Bootstrap and JavaScript. I have hosted them on GitHub and am maintaining the sites from there. Check out the details below.

Portfolio

Link: https://tejapotnuri.github.io/Portfolio/

- Designed and developed a responsive portfolio website using HTML, CSS, and JavaScript.
- Integrated animations to enhance user engagement and create an interactive experience.
- Showcased personal projects, technical skills, and contact information effectively.
- Ensured cross-device compatibility and an optimal user experience.
- Demonstrated creativity, attention to detail, and a passion for delivering high-quality web solutions.

ServicesPro

Link: https://tejapotnuri.github.io/ServicesPro/

- Led the development of ServicesPro, a job sheet and service management web application using HTML, CSS, and JavaScript.
- Implemented responsive design with Bootstrap and optimized event handling using jQuery.
- Utilized AWS for reliable web hosting and integrated Google Analytics for user behaviour tracking.
- Developed flexible pricing plans to cater to diverse industries like mobile repair, computer repair, and automobile services.
- Ensured performance optimization and user-centric design for seamless usability.

QueenzMakeUpStudio

Link: https://tejapotnuri.github.io/QueenzMakeUpStudio/

- Designed and developed the Queenz Makeup Studio website using HTML, CSS, and JavaScript.
- Integrated essential features like a gallery, contact form, testimonials, and smooth-scrolling navigation.
- Implemented responsive web design techniques to ensure adaptability across devices.
- Hosted the website on GitHub Pages, ensuring accessibility and availability.
- Maintained source code on GitHub, emphasizing transparency and collaborative development.

SKILLS

Technologies: HTML, CSS, and JavaScript

Tools: WordPress, GitHub
